|--|-------------------------|
| Conductor | 1st Trombone |
| 1st E \flat Alto Saxophone | 2nd Trombone (Optional) |
| 2nd E \flat Alto Saxophone | 3rd Trombone (Optional) |
| 1st B \flat Tenor Saxophone | Guitar Chords |
| 2nd B \flat Tenor Saxophone (Optional) | Guitar (Optional) |
| E \flat Baritone Saxophone (Optional) | Piano |
| 1st B \flat Trumpet | Bass |
| 2nd B \flat Trumpet | Drums |
| 3rd B \flat Trumpet (Optional) | |

Optional Alternate Parts

C Flute
Tuba
Horn in F (Doubles 1st Trombone)
Baritone T.C./B \flat Tenor Saxophone (Doubles 1st Trombone)

NOTES TO THE CONDUCTOR

Hit the Road Jack was made famous by the legendary Ray Charles in the R&B style. It is a swing chart with a solid backbeat on beats 2 and 4. Eighth notes are swung with a light feel—avoid overdoing the swing feel or it will sound stilted, and it won't swing!

The drumset player should keep the snare drum backbeat on 2 and 4 to give it an R&B feel. When the saxes enter in measure 9, they should dig in and be fairly aggressive, which is the nature of this tune and chart. Unison lines should, of course, be in tune. Players must listen and be aware of each other to adjust as needed, but still maintain a confident and solid sound. For the bends for the saxes in measure 10, they should try to imitate the sound of a vocalist bending a note. It's not as radical as it looks but caution the saxes not to bend too much. Just a slight drop of the jaw should do it, and then bring the pitch back up immediately. The effect can be omitted entirely if desired.

Unison brass at 19, so listen for intonation and direct the players to listen to each other. The groove changes at measure 37, so all winds should be careful of intonation on the unison sections.

Regarding articulation, the rooftop accents (▲) should be played detached and accented, but not staccato—think “daht.” The last eighth in a group of two or more is short, but not clipped.

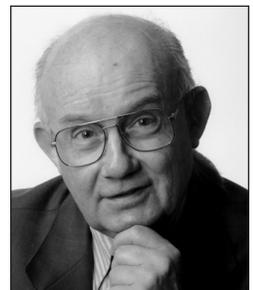

For the rhythm section, the guitar will have slash marks to indicate comping using three- or four-note chords in a quarter note pattern. For the best sound, ask the guitarist to use medium-thickness picks which will give the sound a very bright, acoustic quality, and to hold the pick loosely between the thumb and index finger. Strum straight quarter notes, trying to cut off (mute) the sound of the chord right after striking the strings. Strum from the elbow, giving a bright, swinging sound that propels the rhythm section forward. The guitarist's quarter note rhythm should perfectly mesh so that the guitar and bass merge into one big sound.

The bass player is walking a bass line throughout—keep it steady! The drumset player should always be thinking about accurate time as the priority over playing fills or setting up band figures. Remind the drummer that the drum part is a guide to what is happening in the ensemble and not every figure needs to be played.

Measures 43 and 44 and 65 and 66 are the loudest parts of this chart, dynamically.

Enjoy!

—Mike Lewis

**Mike
Lewis**

Mike Lewis has been a freelance arranger/composer for many years. Starting with the “Jackie Gleason TV Variety Show” as a staff arranger, he became heavily involved in the pop music field, arranging hit records for some today's top pop artists. He has also been commissioned to write charts for the Glenn Miller Orchestra, and the Lionel Hampton and Jimmy Dorsey orchestras.
