### TO THE DIRECTOR

A solid rhythm section is the key to making this chart work. The parts are generously notated and thereby balanced in their relationship to one another. Embellishment should be kept to a minimum, lest the groove become cluttered and unfocused. The backbeat is strong, but not overbearing. While the bass and drums need some weight, the groove must not feel heavy at any point. The guitar riffs should be applied with a delicate, understated touch, and the keyboard parts with a sprightly bounce.

The introduction and ending act as bookends to the chart. It is important that the time is strong, despite the lack of backbeat here, and it is crucial that despite the harmonic density, the forward motion remains unweighted.

With the rhythm section groove in place, the saxophone section melody should superimpose nicely with a light and fluid feel. Take advantage of articulations and dynamic changes as they will help provide the energy needed to prevent the melody from becoming lifeless. The unison trumpet melody at measure 62 benefits from a slight push on the syncopation as these rhythms have a tendency to drag.

The alto solo at measure 96 has plenty of time to build. Whether improvising, or playing the written solo provided, be sure that the energy at the beginning allows enough room to build through the end of the solo. The tutti section at measure 160 can apply contour dynamics ever so slightly, but the forte-piano crescendos are the key to keeping the energy high here.

Although this chart is not technically challenging, attention must be paid to the effective sustainability of the appropriate energy, and a solid, yet buoyant groove. When that energy and groove are in place, the chart will practically play itself.

SoloMate recordings are available at [kendormusic.com](http://kendormusic.com) for new Kendor and Doug Beach releases. This innovative resource lets students practice their solos by downloading professionally-recorded rhythm section accompaniment tracks. A full recording of this chart can be downloaded at [www.kendormusic.com](http://www.kendormusic.com).
