TO THE DIRECTOR

Avoid playing this chart faster than the suggested metronome marking (quarter note = 104), because the effectiveness and playability of the figures will be compromised at a faster tempo. As always, observe all articulations and dynamic markings to give the piece a crisp, spirited performance.

A funk chart like this requires the drummer to play a very simple, deliberate funk beat. The bass part works really well as is, so the bassist should stick close to the written part and strive for a very staccato fingering style when called for.
