TO THE DIRECTOR

This chart is an Americanized Brazilian samba that begins with just the trombone section. For rehearsal purposes, you may want your drummer to start the high-hat pattern from measure 9 at the beginning. Make a point to play very rhythmically throughout, but keep it light on the unison melody. The fall in the saxophones in measure 26 and the trumpets in measure 62 should be a short lip drop, not a glissando.

The solo section at measure 109 can be opened up for solos, with written solo sheets provided. The backgrounds should be played every time except for measures 141-152 which can be on cue. The drum breaks at measure 101 and at 161 can just keep the groove going or be an all out solo. Measures 161-168 can easily be opened up for the rhythm section. Encourage your auxiliary percussionists to jump in as well on shakers and other toys. Make sure the added parts are playing a repeated pattern that jives with the rest of the groove.

The texture and dynamics of the chart breaks down at 161 and continues to build right up to the end. All the soloists that played at 109 should jump in and trade at measure 261. Everyone then plays the unison figure at 267 to take it home.

SoloMate recordings are available at kendormusic.com for new Kendor and Doug Beach releases. This innovative resource lets students practice their solos by downloading professionally-recorded rhythm section accompaniment tracks. A full recording of this chart can be downloaded at www.kendormusic.com.
