TO THE DIRECTOR

This chart is based on a straight eighth note pop groove in the style of Sting, with a catchy melody and hip harmonies. Encourage your rhythm section players to really lock in to the eighth notes and keep it simple, maintaining a solid and propulsive feel without overplaying. The whole ensemble should pay attention to the offbeat figures that begin at measure 18 and not let them rush.

The solo section at measure 31 can be repeated as desired for each soloist. Chords are cued on all the parts, so encourage the players to take a solo. The Bb7 chord can be treated in a bluesy way by using the blues scale, or it can be given a more extended sound (with 9ths and 13ths) by using the mixolydian scale. After each solo, go on to the interlude at measure 43. After measure 50, return to measure 31 for another soloist, or go on to measure 51. Pay close attention to the dynamics at measure 51, by starting at a very quiet dynamic it will heighten the sense of the crescendo until the dynamic peak at the pickups to measure 67.

As in all charts in this series, this chart can be played without 3rd and 4th trombones. In many places, the 3rd trombone part has optional cued notes - the full size notes are preferable, but if they are too high, the optional notes can be played. Such optional notes also appear in the 1st Alto and Baritone Sax parts.

SoloMate recordings are available at kendormusic.com for new Kendor and Doug Beach releases. This innovative resource lets students practice their solos by downloading professionally-recorded rhythm section accompaniment tracks. A full recording of this chart can be downloaded at www.kendormusic.com.

Mike Pinto is a guitarist, composer, arranger, and educator based in Chicago (IL). His performing and writing span a wide variety of styles, with commissions including works for big band, electric guitar ensemble, and percussion ensemble. As a member of the jazz studies faculty at Elmhurst College, he teaches privately and directs several ensembles. Mike holds degrees from DePaul University and Elmhurst College.
