TO THE DIRECTOR

This chart features any instrument. It is an extra part in addition to the normal jazz ensemble instrumentation, therefore the soloist can be a member of the ensemble or perhaps a featured guest artist. Depending on the choice of solo instrument, some written passages could be played an octave higher at the performers discretion.

The ballad sections should have a good ensemble blend and intonation. Flugelhorns will give a nice color, but should only be used if there are enough for the whole section. Work to follow the natural dynamic contours of the music - crescendos going up, decrescendos going down.

The tempo changes are exact metric modulations - the ballad eighth notes equal the new quarter notes at measure 44 and vice versa at measure 130. The Latin section should have clear ensemble articulations to compliment the rhythms. Pay special attention to entrances falling on beat two in measure 58, 105 and 107.

Measure 150 begins a saxophone chorale - use enough air to sustain the four-measure phrases. The texture should only be slightly louder with the addition of the brass in measure 158. Resist the urge to crescendo in the last three measures, and stretch out the eighth notes for a nice musical ending.

SoloMate recordings are available at kendormusic.com for new Kendor and Doug Beach releases. This innovative resource lets students practice their solos by downloading professionally-recorded rhythm section accompaniment tracks. A full recording of this chart can be downloaded at www.kendormusic.com.
