NOTES TO THE CONDUCTOR

Freddie Hubbard performed and recorded his composition "Gibraltar" many times in his career. Freddie's performance on his recording *Born to Be Blue* served as an inspiration while writing this arrangement. Alex Silverbook and the Sherwood High School Jazz Band, Sandy Spring, Maryland, commissioned me to write a chart on this wonderful tune.

My arrangement begins utilizing a samba feel. The brass figures and dynamics should be precise, and the countermelody in the alto saxophones, tenor saxophones, and guitar should be strong. At m. 11, the rhythm section should settle into a relaxed samba groove. In this passage and throughout the chart, when this pattern occurs, the printed piano figures and voicings (inspired by Billy Childs playing on the aforementioned recording) should be used as a guide.

Beginning at m. 18, 1st tenor saxophone, 2nd trumpet, and guitar state the A section melody. Rhythm section players and all other horn players should strive to compliment the melody and not overshadow these players. A brief swing feel occurs in the A section from mm. 34–38 before switching back to a samba feel at m. 39.

The B section of the tune begins at m. 44 and is played with a swing feel. Trumpets, 1st and 2nd trombones, and piano state the melody over the pedal points with alto saxophones, tenor saxophones, and guitar interjecting figures. Saxophones and guitar restate the A melody beginning at m. 59 and the feel changes back to the samba. Brass figures should be strong and cleanly articulated. The transitions from samba to swing and back should be anticipated by the rhythm section, and especially the drummer.

Measure 84 begins a solo section that employs an AAB form. I have designated it as a 2nd trumpet solo the first time and a 1st tenor saxophone solo the second time. Written suggested solos are provided; however, students should be encouraged to improvise on the chord changes. This section could be opened up to allow for these soloists to stretch out if so desired, and/or it could be opened up for additional soloists. Background figures should not overpower the soloists.

A development section begins at m. 109 with saxophones and rhythm section playing a variation of the B section. Drums should solo between the figures. Trumpets and trombones join in the second time. A classic Freddie Hubbard figure or "lick" occurs in the trumpets in mm. 111–112, utilizing alternate fingerings to mimic Freddie's classic motif. Measures 125–128 should build up to signal the ensuing shout chorus that begins at m. 129. During the shout chorus, the brass punches should be cleanly articulated, and the saxophone melodies should be strong and played in an aggressive manner. Measure 149 begins an eight-bar drum solo, which could be played as the written groove or as an ad lib solo. A D.S. leads back to the bridge at m. 44.

The Coda begins a tag section that features short solos by 2nd trumpet and 1st tenor saxophone. Again here, figures should not overpower the soloists but should gradually build to the figures and drum solo at m. 174. The drums solo in m. 178 before the final chord.

I hope you and your students enjoy studying and performing this arrangement.
