I. START WITH THE BLUES

9: INSTRUMENTS

4

II. A SCALE FOR ALL OCCASIONS

This piece utilizes the following symmetrical scale which alternates a minor 3rd and a half step.

The scale can be used in a variety of situations due to it having the minor 3rd, major 3rd, sharp 5 and major 7th of the tonic. This works well with major 7th, sharp 5 or flat 5, and if you flat the 7th (B), you can use it to color dominant 7th chords.

The tonal center of the piece is B_b and pretty much uses the one scale in a variety of ways. Eighth notes should be played long and legato (connected) and evenly.

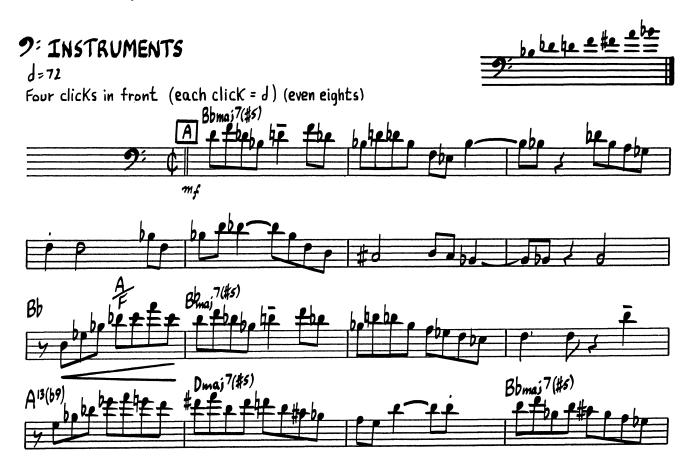

I was hearing this one as a jazz & funk piece with a Middle Eastern flavor. Try figuring out another groove. It might work with swing, hip-hop, etc.

When playing on the blues, try to interject this scale in your solo. If the piano player is listening, he/she will compliment your line with a major 7th sharp 5 chord or perhaps a dominant 7th altered chord.

Example:

II. A SCALE FOR ALL OCCASIONS
