Ardiente

Each of you has a fire within that nothing can extinguish- not even the deepest tragedies that life can sometimes bring. *Ardiente* was written as a "thank you" to my colleagues of the Florida Bandmasters Association for all the clinician and guest conductor offers that poured in and that slowly pulled me back to a better place - when I had sworn off my prior, happy music world after losing my little boy, Sean. At first, I declined, but they kept asking. My colleagues' beckoning me back to the dance floor helped me see that, even during the darkest of times, we can allow ourselves to return to the things that (and friends who) once brought exhilaration. We can find a way to share we have learned to benefit others. The opening Piano melody is the darkest place that all humans endure at some point, but as the med tempo "Son Montuno" (aka Salsa) groove beckons us back to that dance floor, we reluctantly get up and slowly move towards things that bring joy. The up-tempo takes off as positive experiences soothe our wounds, and we so actually begin to embrace and accept the truth that life can indeed be joyous again. As a matter of fact, it can actually be raucous fun! When the Trumpets restate that opening, sad melody at the end, they do so with a new soaring spirit over a rhythmic "high" as they remind us all of one very important thing at the end: Regardless of any tragedy or struggle that stays with us, we can always find a way to turn it into something positive that heals others as we heal ourselves. *Tu espíritu es Ardiente*. Never forget that.

Performance Notes

1. The Piano intro must not embellish. It represents deep grief and should be played "as written". The demo will truly help interpretation. The "montuno" patterns after that should be played smoothly and accented, no staccatos anywhere.
2. Staccatos should not "peck" harshly (play lightly). Move all upbeats smoothly forward and in a lightly detached (staccatos are not written on these notes) because the eighth rests in between set enough space (not too short).
3. Bass must sync with the Bass Drum and move forward on all "+ of 2" upbeats. A few "Beat 1" notes are written in to give younger players comfort points; advanced players can keep the "+ of 2" groove throughout. Students must lay down the foundational "Tumbao" groove and play it tightly with the Congas "Tumbao" to really lock in.
4. The Conga is the other "Tumbao" player and has two key patterns and should view online videos on how the various tones that are indicated on the part (Heel, Toe w/ flat fingers, Slap, Open, Palm) are executed. They should be practiced slowly until felt as second-nature (will not take long).
5. Drums must adhere to the two main 2-bar grooves as written: "Cáscara" and "Campaneo" and should follow the suggestions in the score as to where on the instrument and when, to play each. The default "Songo" groove is not a proper substitute for the authentic grooves, but it can be reserved for elevated sections like solo escalations.
6. Rhythm must never overpower the winds. Percussion should perform tutti fills and work those as a section. These are called "cierres" or closures (to phrases). Several rhythm sectionals (with a metronome set to an amplifier) will really help this piece lock in together quickly.
7. Claves are not needed (Guitar is comping the 2/3 "Son" clave, not the similar "Rumba" clave). If Claves are added, avoid overusing. A good place to use them is the A sections, (w/ Cowbell or Shaker at B sections), and beginnings of solos (switch at escalation.)
8. If there is a 3rd or 4th percussionist they should play the traditional "Martillo" pattern on Bongos. If extra Timbales are used (not needed as Drum set covers the patterns): Timbale plays RH Cáscara (shell) and Cámpameo (bell) while drums can play RH 1/4 notes on Cowbell or bell of the ride to avoid clashing.
