

Symphony No. 7

(2nd Movement)

Ludwig van Beethoven
Arranged by Vernon Leidig

This wonderful set of variations was encored at its first performance, a compliment rarely accorded to slow movements. With its serene and solemn dignity, it has been likened to a procession through the catacombs. Minor changes in instrumentation have been made here to make this treatment of Beethoven's masterpiece very accessible to the more advanced student orchestra, while still sounding very close to the original.
