PROGRAM NOTES

What would a piece for band entitled *Stay Tuned* sound like? How about one part tuneup, one part driving energy, and one part tuneful melody? Add to this that the tuning note is always present somewhere throughout (even in the lyrical section), whether sustained or rhythmically varied. Can you find it? Stay tuned for fun!

NOTES TO THE CONDUCTOR

Although the first seven measures are meant to sound like musicians warming up individually at the same time, the music should be executed exactly as written. At measure 10, the tuning note begins and is always present throughout, either sustained or rhythmically active. This figure helps to keep the momentum and energy constant. The time signature changes also add interest and, like anything musically challenging, should be practiced slowly at first. As usual, attention to articulations and dynamics (especially in the lyrical section) is essential for achieving an expressive performance. I really had fun writing this piece, and I hope you, your band, and your audiences also find enjoyment in its performance.

— Vince Gassi
