Colette Mourey

www.colettemourey.com

English: Colette Mourey was born in 1954 and forms future schoolteachers at the University of Franche-Comté in France. Since 2008 she has been working on her own theory of "hypertonicity", which is based on a larger scale than the octave, thus radically transforming atonal counterpoint techniques by allowing the reintroduction in this context of "natural consonances". At the same time this experiment allows the composer to create methods of musical initiation and education which embrace a wide spectrum of contemporary tendencies, both in the geographical and historical senses. The passage from atonality to hypertonicity is the result of her desire to bring serious contemporary composition and more popular trends closer together, whilst remaining within a complex musical organisation.

Français: Née en 1954, professeur à l'Université de Franche-Comté, France, où elle enseigne aux professeurs des écoles en formation, Colette Mourey travaille sur l'élaboration d'une "hypertonalité", qu'elle a inventée, de 2008 à 2010. Cette "hypertonalité", qui repose sur des échelles supérieures à l'octave, et qui transforme radicalement les techniques de contrepoint atonal, permet la réintroduction dans ce contexte de "consonances" "naturelles". Parallèlement, cette expérimentation permet à la compositrice de fonder des méthodes d'éveil musical ou de formation musicale plus largement ouvertes sur tous les courants contemporains, géographiquement et historiquement. Son passage, de l'atonalité à l'hypertonalité, est la résultante du souhait qu'elle émet, de rapprocher composition contemporaine et "grand public", tout en restant dans une organisation musicale complexe.

Deutsch: Colette Mourey wurde 1954 geboren, und unterrichtet zur Zeit zukünftige Schullehrer an der Universität der Franche-Comté (Frankreich). Seit 2008 entwickelt sie ihre eigene Theorie der "Hypertonalität", die auf einer Skala beruht, die grösser als die Oktave ist. Diese Erfindung verwandelt grundsätzlich die Technik des atonalen Kontrapunktes, so dass "natürliche Konsonanzen" in diesem Zusammenhang wieder eingeführt werden können. Gleichzeitig erlaubt dieses Experiment der Komponistin, neue Erziehungsmethoden zu gründen, die eine breitere Öffnung zu allen zeitgenössischen Stilrichtungen einführt, im geographischen sowie auch im geschichtlichen Sinn. Dieser Übergang von der Atonalität zur Hypertonalität ist das Ergebnis ihres Wunsches, ernste zeitgenössische Komposition und andere, eher populäre Stile näher zusammenzubringen, aber doch innerhalb einer komplexen Musikstruktur.
