

**These duets were written for the intermediate and advanced student interested in playing jazz. The range of notes gets higher and the duets get harder with each volume. The chord changes are included to help learn the structure and chord progressions, and so the duets may be played with a rhythm section if desired. Learn a little piano so you may visualize and hear the chord structures and follow their patterns. “Roll” those 8th notes. Keep the duets “swinging”.**
